game's pretty sick. This is a tower defense game with a different twist, the enemy is just a (generally) physics-correct liquid.

Now, to be fair, I played Creeper World 3 first so there were some things that I was expecting that weren't in this game. That said, this game was quite good. I played through the campaign and it frustrated me that I didn't have access to reactors until so late in the campaign, though it does tend to make the game a bit more trivial once you get them.

I think it's definitely worth a play, especially if you haven't played later iterations of the series yet. It's a great series, the campaign is fun, and I definitely recommend for people who are either fans of TD and looking for something a bit new or people who are interested in trying their first TD game.. totally worth it, money well spent. Short and bitter sweet.. You play as a heavy armored knight. With a bow. In a lab. You have to reach the exit and you can rope swing and walk on your own arrows. Oh wow.. If you value your friendships or sanity, do not buy this game. If someone gifts you this game, you should probably unfriend them. If you've received this game for free, I'm sorry my friend, but you are actually dead and in hell, this is your punishment for being a horrible person in life.

This might be the game for you if you enjoy controls that only sometimes work, extremely poor surprise platformers, or loads of red herrings.

I once got lost hiking in the mountains for 5 hours, got altitude sickness and was sure I was going to die. I thought it was the worst moment of my life, but in reality it was playing this game.

Turn back now unless you are TOO happy with your life and want to slum it up for a while.. bought for \$0.64NZD

worth the price. by buying this you can focus your xp on the good stuff. Not as good as hexcells, but very brain melting nonetheless. If you're into puzzlers, get this.

A great 2 player brick buster with a twist :). Maybe the best puzzle game on STEAM.. Dead Body Simulator 2017. This game is a breath of fresh air. I don't remember the last time that I enjoyed adventure game so much. It is very beautiful with interesting story. A real hidden gem. Highly recommend the game.. The gameplay is solid and the presentation is great, but that's it for now. There are many bugs, the keyboard controls are borked and the UI/menus are much too lacking. As well as this there's no form of online connection.

However, this game has a lot of promise with it being in early access. I hope that it flourishes and fixes its issues and quickly adds more content soon. Definitely give this game a try with a friend or two, but be wary if alone.. This game is a great throwback to sidescroll shootemups, and the gameplay gets right down to brass tacks. Soundtrack is fantastic, the weapons crafting system is extremely indepth and enjoyable, and the levels are very creative. Bundles of fun.. cant get dlc to download
